Jas. J. Gilmore was tried in the Justice Court yesterday on a charge of disturbing the peace. The jury found him guilty, and Justice Young sentenced him to pay a fine of \$50.

There is to be a total eclipse of the sun on September 9th of the present year. The only land from which the phase of totality will be visible is on the shore of Cook's Strait in New Zealand.

The Cherry Creek News says: Surveyor General Powning's annual report to the Commissioner of the General Land Office, published in the News today, is a very interesting document, and treats on the varied industries of our State in an able and intelligent manner.

Low Tide.

The Enterprise says: "The rivers in this State are all running lower than usual at this season of the year. Notably is this the case with the Walker, Carson and Truckee. This is the result of the delightful weather and immunity from heavy snow storms we enjoyed during the latter portion of the Winter, after the first part of January. The snowfall in the Sierra Nevada was light as compared with previous Winters, therefore the Summer sun made short work of it, and as soon as the supply failed at the source the volume of water in the mountain streams and rivers failed as a natural consequence, and no increase need be looked for before next Fall or cooler weather gives less evaporation, and the mountain springs begin to rise and give a better flow. Just now all the water in the Carson river is taken up by the farming and mill ditches, and the salivated frogs in the canyon between Empire and Dayton have to hunt the dams to keep the skin from drying up on their poor backs."

Late Land News for Settlers.

The following are instructions relative to proof in support of pre-emption claims and commuted homestead entries:

"The claimant must show at least six month residence next preceding date of final proof, which must be made on the day and at the day advertised. Residence must be actual habitation of, and not occasional visits to the land. The party must actually reside upon, cultivate and improve the land for at least the period above mentioned. Persons doing business in town and residing there or elsewhere than on the land entered or filed for, or otherwise not actually living on the land, must not be allowed to acquire title thereto by pretext or assumption of 'constructive residence.' The character of the improvements and amount of cultivation must be such as evidence entire good faith on the part of the claimant.

Persons applying to give notice of their intention to give proof, should be advised that it will be a useless expenditure of time and money if they will not be able on the day fixed, to show full and actual compliance with the law.

THE TRUSTEE QUESTION.

An Expression From Attorney General Davenport Upon It.

OFFICE OF ATTORNEY GENERAL,
CARSON CITY, NEVADA.

July 30, 1885.

Hon. C. S. Young, Supt. of Public Instruction.

DEAR SIR:—Numerous inquiries having been made as to the status of the School Trustees elected in May last, and you being anxious to have my official opinion upon the constitutionality of the statutory provision under which the election took place, I have the honor to say that in my judgment the provision is unconstitutional and void.

Section 2 of the Act in question provides that where the number of census children in a district exceeds four hundred, the Board of Trustees shall consist of five members, of whom one shall be elected annually for a term of five years. This is in direct violation of the constitution, which prohibits the Legislature from creating any office the tenure of which shall be longer than four years. The portion of the section which provides for the election of Trustees for three years is open to no such objection; but these different provisions are so intimately connected that they cannot be separated, and one part hold good while the other is rejected. They must stand or fall together.

If we strike out the unconstitutional portion, it virtually destroys the whole section by leaving those districts in which there are more than four hundred school children without any mode of electing Trustees. It would not do to elect Boards of three members in each district regardless of the number of school children, for obviously the Legislature never intended such an apportionment. Under the law districts having more than four hundred children are just as much entitled to five Trustees as the smaller ones are to three, and there is no more authority to change the number from five to one, or to any other number that might be suggested. In any such case it would be in effect creating a law different from the one enacted by the Legislative powers and cannot be sustained either by reason or authority.

Hence the part which is bad, the five-year provision—as of the very fibre and the substance of the act, and vitiates the whole so far as it deals with the same subject matter. Section 2, which provides for and election and apportionment of Trustees being unconstitutional, it follows that the succeeding section down to and including Section 11 all being in pari materia are equally so. Sections 1, 12 and 13 relate to matters entirely different, namely, the apportionment of school money.

To these provisions no constitutional objections have been offered, and none at present suggest themselves to my mind.

If the foregoing views are correct, it necessarily follows that the elections held last May were nullities, and that the previously elected Trustees are still legally in office. I have the honor to be yours respectfully,

W. H. DAVENPORT,
Attorney General.

Reduction of Tuscarora Mail Service.

The Tuscarora Times-Review says:

An order has been issued from the Postal Department at Washington reducing the mail service between Elko and Tuscarora to six mails a week, and between Tuscarora and White Rock to twice a week. Daily service is now being had on both routes. The order is to take effect on the 16th inst. It is probable that after that date no stages will run between this place and Elko on Sundays. The reduction is probably made on the score of economy. Since the reduction of postal rates there has been a heavy falling off in the receipts, and the Department appears resolved to lessen proportionately the expenses of the service. We believe that a large majority of the people of the Nation would prefer higher rates and increased service.

Superfluous Windmill.

Dahl's big windmill, on the shore of Washoe Lake, is being taken down and removed. It was built, says the Carson Appeal, under the brow of a hill where the wind never hit it. This is said to be the only place on the shore of the lake where the wind never blows. As a picturesque addition to the landscape, however, its claims were never disputed.

Pacific Brewery Beer.

Ed. Pagenstecher, late of Denver, Colorado, is now in charge of the Pacific Brewery and, if possible, making better beer than was ever before manufactured at the brewery. It is strong, and will keep longer than many of the brews made on this Coast. The long experience of the gentleman now in charge insures a first-class article, and as home manufacture should be given the preference there is every reason why the Pacific Brewery should soon be enlarged. Give the beer manufactured there a trial and become convinced that it is as good as that imported.

BREVITIES.

"Let us have peace" to-day.

The Boscowitz jokers were in town yesterday.

J. S. Shoemaker returned from Pyramid last night.

Close your place of business promptly at 11 o'clock.

Hon. J. D. Reese, of Gold Hill, was a passenger for the Bay last night.

The Memorial exercises at the theater will commence promptly at 1 o'clock.

F. A. Teasland and Mrs. J. T. Davis came down from the Mount House last night.

Charley Becker is now selling beer at five cents a glass. He is doing a loud office business.

T. K. Stewart and wife, Mrs. H. J. Thyes and Miss Hattie Higgins have returned from their California trip.

The theater has been beautifully decorated and Laycock has painted pictures of Washington, Lincoln and Grant for the occasion.

The Crown Point will shut down to-day, and the Yellow Jacket will suspend operations on Monday, but it is thought the latter will start up again in a couple of weeks.

The new concentrating works at the Morgan Mine, near Washoe City, will start up the latter part of this week. Great hopes are entertained that the operations will prove successful.

It is stated that the Southern Pacific is making arrangements to run all of its emigrant cars on the express trains. It is also reported that the company will reduce first-class fares to New York down to \$100.

The Walker Lake Bulletin says that the most prosperous camp in Esmeralda county at present is Marietta. The mines are looking well and the bullion returns are solid evidence of the reality of appearances.

W. W. Rogers, the popular County Recorder, is in from Elko, and will remain until after the session of the Grand Lodge, Knights of Pythias, to which he is a delegate. The freedom of the town has been extended to him.

By reason of W. E. F. Deal having gone to San Francisco to attend the funeral of Judge Whitman, he will not be able to preside at the Grant memorial services in Virginia City to-day. Hon. William Woodburn has been invited to act in his place, and has kindly consented to do so.

An Addition to "The School for Girls"

Bishop Whitaker has so many applicants for boarders that he has decided to put up another building about 50 feet east of the present one. It will be 50 by 24, standing east and west and two stories high. It will be divided into music and recitation rooms below, and dormitories for teachers and scholars above. George Holesworth has the contract and is to finish the carpenter work in sixty days. Updike is to do the painting, Burke the masonry and Martin the plumbing. These names show that the work will be well done. It will be the same style as the main building. This will give the school accommodations for 50 boarders. The school was planned for five teachers, but there are now eight, and the plan had to be enlarged accordingly. The school opens August 27. The main building is being put in thorough order. Updike is at work painting and papering the gymnasium, and brushing everything up as clean as new.

The Camelarita Situation.

The Walker Lake Bulletin says: Last week about forty men went to work in the Holmes mine at \$3 a day. The next day however, a meeting was called and they were notified not to work for less than \$3 50. This resulted in closing the mine, which has not yet resumed operations. The men, as yet accounts were still debating the question, but nothing definite is known except that the mine will not reopen until the wages are fixed at \$3 a day.

The Grant Monument.

The following circular has been received by F. Macdonald, operator at the telegraph office, signed by F. Jaynes, Superintendent of the Western Union Telegraph Company:

The executive Committee of the Western Union Telegraph Company, resolved at its meeting, July 30th, to subscribe the sum of five thousand dollars toward the fund for a monument to General Grant. It also resolved that the managers of the company's offices be instructed to receive subscriptions to the fund from the public. All managers will therefore please display in their offices, notices to the effect that they are prepared to accept such contributions and to give informal receipts therefor, which receipt will subsequently be replaced by formal receipts from the committee of the Grant Monument Association, which has been appointed by the Mayor of the City of New York. Each manager will provide himself with an ordinary cash book, in which, under appropriate headings, he will request each subscriber to write his own name, his postoffice address, the amount of his subscription, and for which subscription the manager will give an informal receipt of the following form, viz.:

Received of _____, date _____, the sum of _____ dollars, as a contribution to the Grant monument fund, which money is to be forwarded to the association having charge of the fund, through the Treasurer of the Western Union Telegraph Company. This receipt is to be replaced later by a formal receipt of the Grant Monument Association. Signed _____, Manager Western Union Telegraph office _____.

In accordance with the above, Mr. Macdonald has opened a subscription list, and all funds contributed will be promptly forwarded by him.

Writing to "Stand in" if Needed

The Times-Review says: The Reno Journal reporter recently interviewed Tom Riskey, the cattleman who is mentioned for the Republican nomination for Governor. While not a candidate, Mr. Riskey expressed his willingness to "stand in" if the party needs him and can find no one else to make the fight. The reporter credits Mr. Riskey with the remark that the cattlemen control several thousand votes and holds the balance of power in the State. It was a very foolish remark if made by Mr. Riskey, which we are inclined to doubt, for it doesn't sound like him. The cattlemen of Nevada are as much divided in their politics as any other class and are no more likely to cast their votes collectively than miners, ranchmen, carpenters or printers.

To Be Dismissed.

The Eureka Sentinel learns, on what it regards as good authority, that the cases of the twelve Ruby Hill miners, under bond to appear at Elko on the 12th for trial, are to be dismissed. If the authority is correct, District Attorney Cheney has already arranged, or will arrange, for the filing of such a motion. Attorney Breen, of counsel for the defendants, is now at Elko on business connected with these cases. The Sentinel is pleased to know that the whole affair is to be squashed in this speedy and satisfactory manner.
